

PRESS RELEASE

For Immediate Release

Apollo Enterprise Solutions Names Ceasar Verdelli New CTO

Irvine, CA January 19, 2007 – Apollo Enterprise Solutions LLC (Apollo), the leading provider of web-based payment and collection technology, announced today that Ceasar Verdelli has joined the company as Chief Technology Officer. His responsibilities include the implementation of Apollo's worldwide Information Technology strategy, infrastructure deployment and operations, data management and global network security.

Prior to joining Apollo, Verdelli served as Executive Vice President and Chief Operating Officer at Golden Retriever System (GRS), a leader in US payment card processing. At GRS, he provided information technology leadership at strategic and tactical levels, managing daily company business affairs, which included capital and expense budgets, capital and expense acquisition, licensing agreements, as well as capacity and disaster recovery planning. In conjunction with managing business relations between GRS and all VISA regions worldwide, Verdelli was responsible for systems design, development, and implementation for VISA's level III data applications. Verdelli was also responsible for planning, implementing and managing the growth of GRS volume to over 14 billion card transactions annually, often handling up to 60 million transactions daily.

"I look forward to working with Apollo's very talented management team on what I consider to be the most advanced and comprehensive solutions available today for web-based payments and collections," said Verdelli. "Apollo has clearly positioned itself as the intellectual and market leader in this space, and my experience in managing operational growth in several businesses will be relevant to Apollo's near-term opportunities and long-term market dominance."

Apollo's Chief Executive Officer, Christopher Imrey, noted, "We are extremely impressed with Ceasar's strong business background and comprehensive expertise in managing, coordinating, facilitating and evaluating all processes associated with sophisticated systems development and deployment. His extensive experience in all aspects of the Information Technology industry, including software, infrastructure, application development, operations and services, will be a great asset to the Apollo organization. We are also very pleased to have a CTO whose experience also includes serving as Chief Executive Officer of a privately held company where he increased revenues from \$1.5 million to \$28 million over 4 years and maintained operating margins at a steady 53%. Ceasar is a strong addition to the Apollo management team."

About Apollo Enterprise Solutions

Apollo Enterprise Solutions, LLC, headquartered in Irvine, California, provides enterprise-class web-hosted solutions for a variety of industries involved in receivables management and debt collections. At the heart of Apollo's Intelligent Debt Solutions™ system is the award-winning, patent-pending IDS Decision Engine™ which provides Decisioning Intelligence™, a revolutionary process that delivers more debtors for recovery and settlement and more dollars per settlement by creating individual, customized offers that reflect a debtor's most realistic ability to pay.
