

PRESS RELEASE

For Immediate Release

Apollo Enterprise Solutions Selects Electronic Payment Providers, Inc. to Provide Integrated Payment Solutions for Web-Based Payment and Collection Solutions

Irvine, CA October 11, 2007 – Apollo Enterprise Solutions LLC, the leading provider of web-based payment and collection technology, announced today that it has selected Electronic Payment Providers®, Inc. (EPP), the national leader in electronic payment services, as a preferred vendor and provider of electronic payment services for Apollo’s Intelligent Debt Solutions™ (IDS) online payment and collections system. With the integration of EPP payment processing solutions, customers and debtors will be able to make checking/savings and credit/debit card transactions directly through an online interface. Utilizing EPP solutions, these payments will be processed electronically, providing faster funds availability, better tracking and accounting, and a significant increase in returns management efficiency.

“The Apollo IDS system was designed to create significant lift in collections portfolios by presenting customized payment or settlement offers online in a non-threatening, convenient, 24/7 environment. By integrating EPP’s Express Payments Suite of automated ACH and Credit Card transaction processing tools into our system, the Apollo IDS system will not only make it more convenient for individuals to pay, it will also expedite the receipt of those payments by our clients,” said Christopher Imrey, Apollo’s Founder and President.

“Online debt settlement is no passing trend. Automated debt collection solutions, such as Apollo’s IDS system, are supplementing traditional collection methods with self-cure channels that ultimately serve to increase efficiencies and ROI in today’s collection environments. Partnering with Apollo was a logical step for EPP due to the synergies that exist between the two business models. EPP looks to integrate our solutions in order to reduce manual processes; online debt settlement provides an ideal channel to do so,” said Scott McCollum, President of EPP.

About Electronic Payment Providers

EPP has combined the perfect mix of technical expertise, common sense and customer service experience to bring you comprehensive payment processing and services which are second to none. With an emphasis on reliability and ease-of-use, EPP offers you the latest, most effective ACH and Credit Card solutions in the industry. The EPP Express Payments Suite serves to simplify the cumbersome process of receiving and applying payments, through integration into the top Accounts Receivable (A/R) and collection software packages. Let us show you how simple getting paid can be. For additional information about EPP, visit www.expresspayments.com or call 1-877-377-2677.
